

Data Spaces Symposium

Value creation in public sector
data ecosystems... and spaces

Ulla Kronborg
Mazzoli

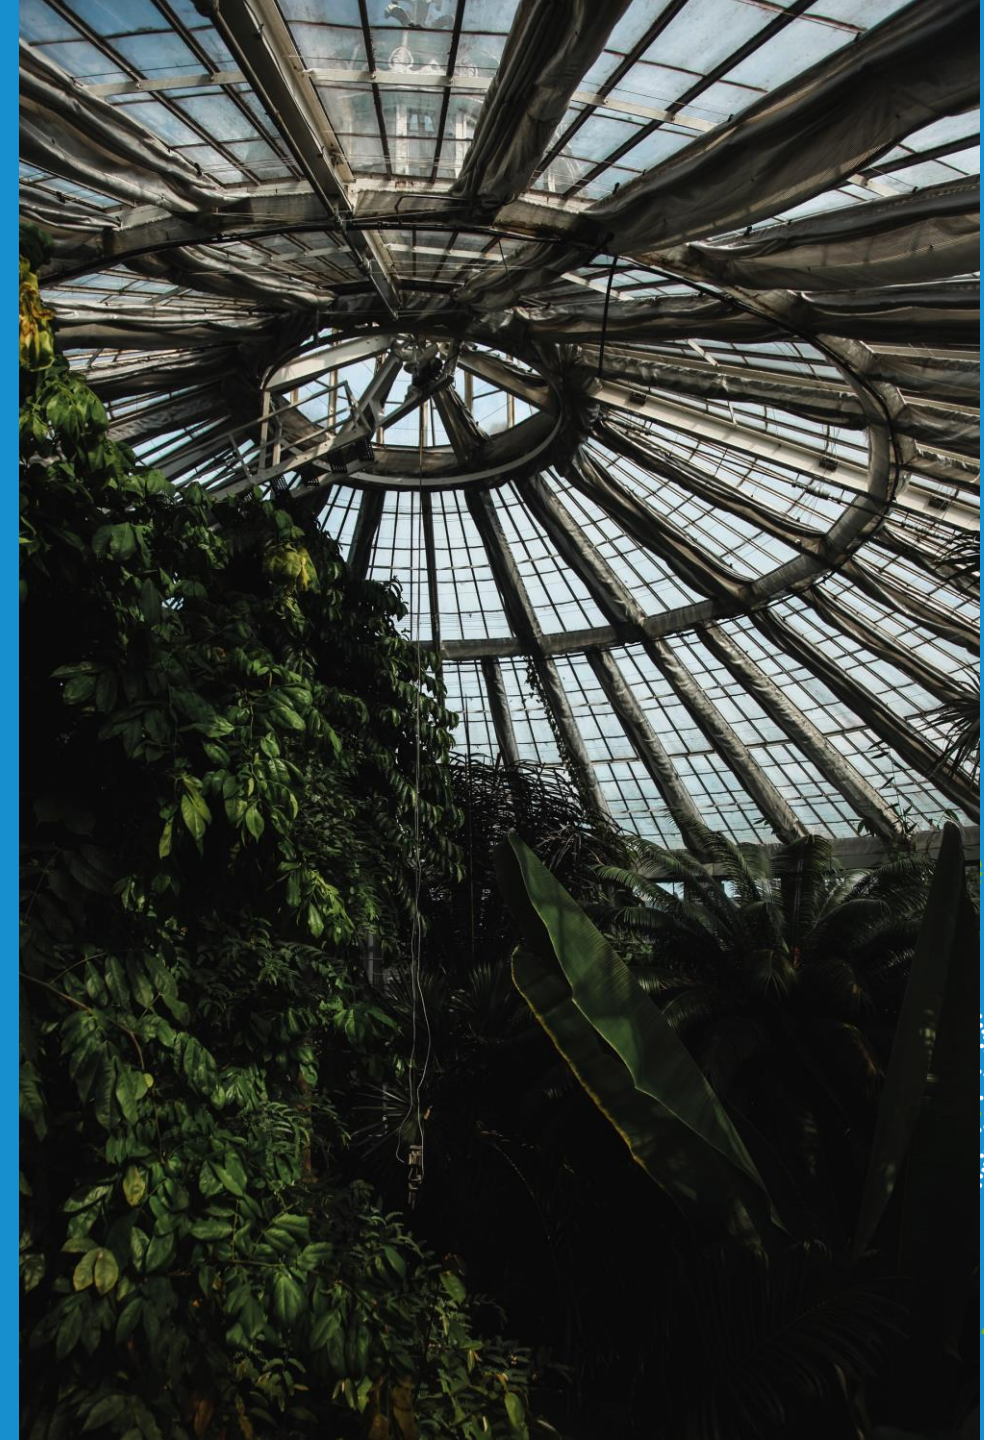

Perspective

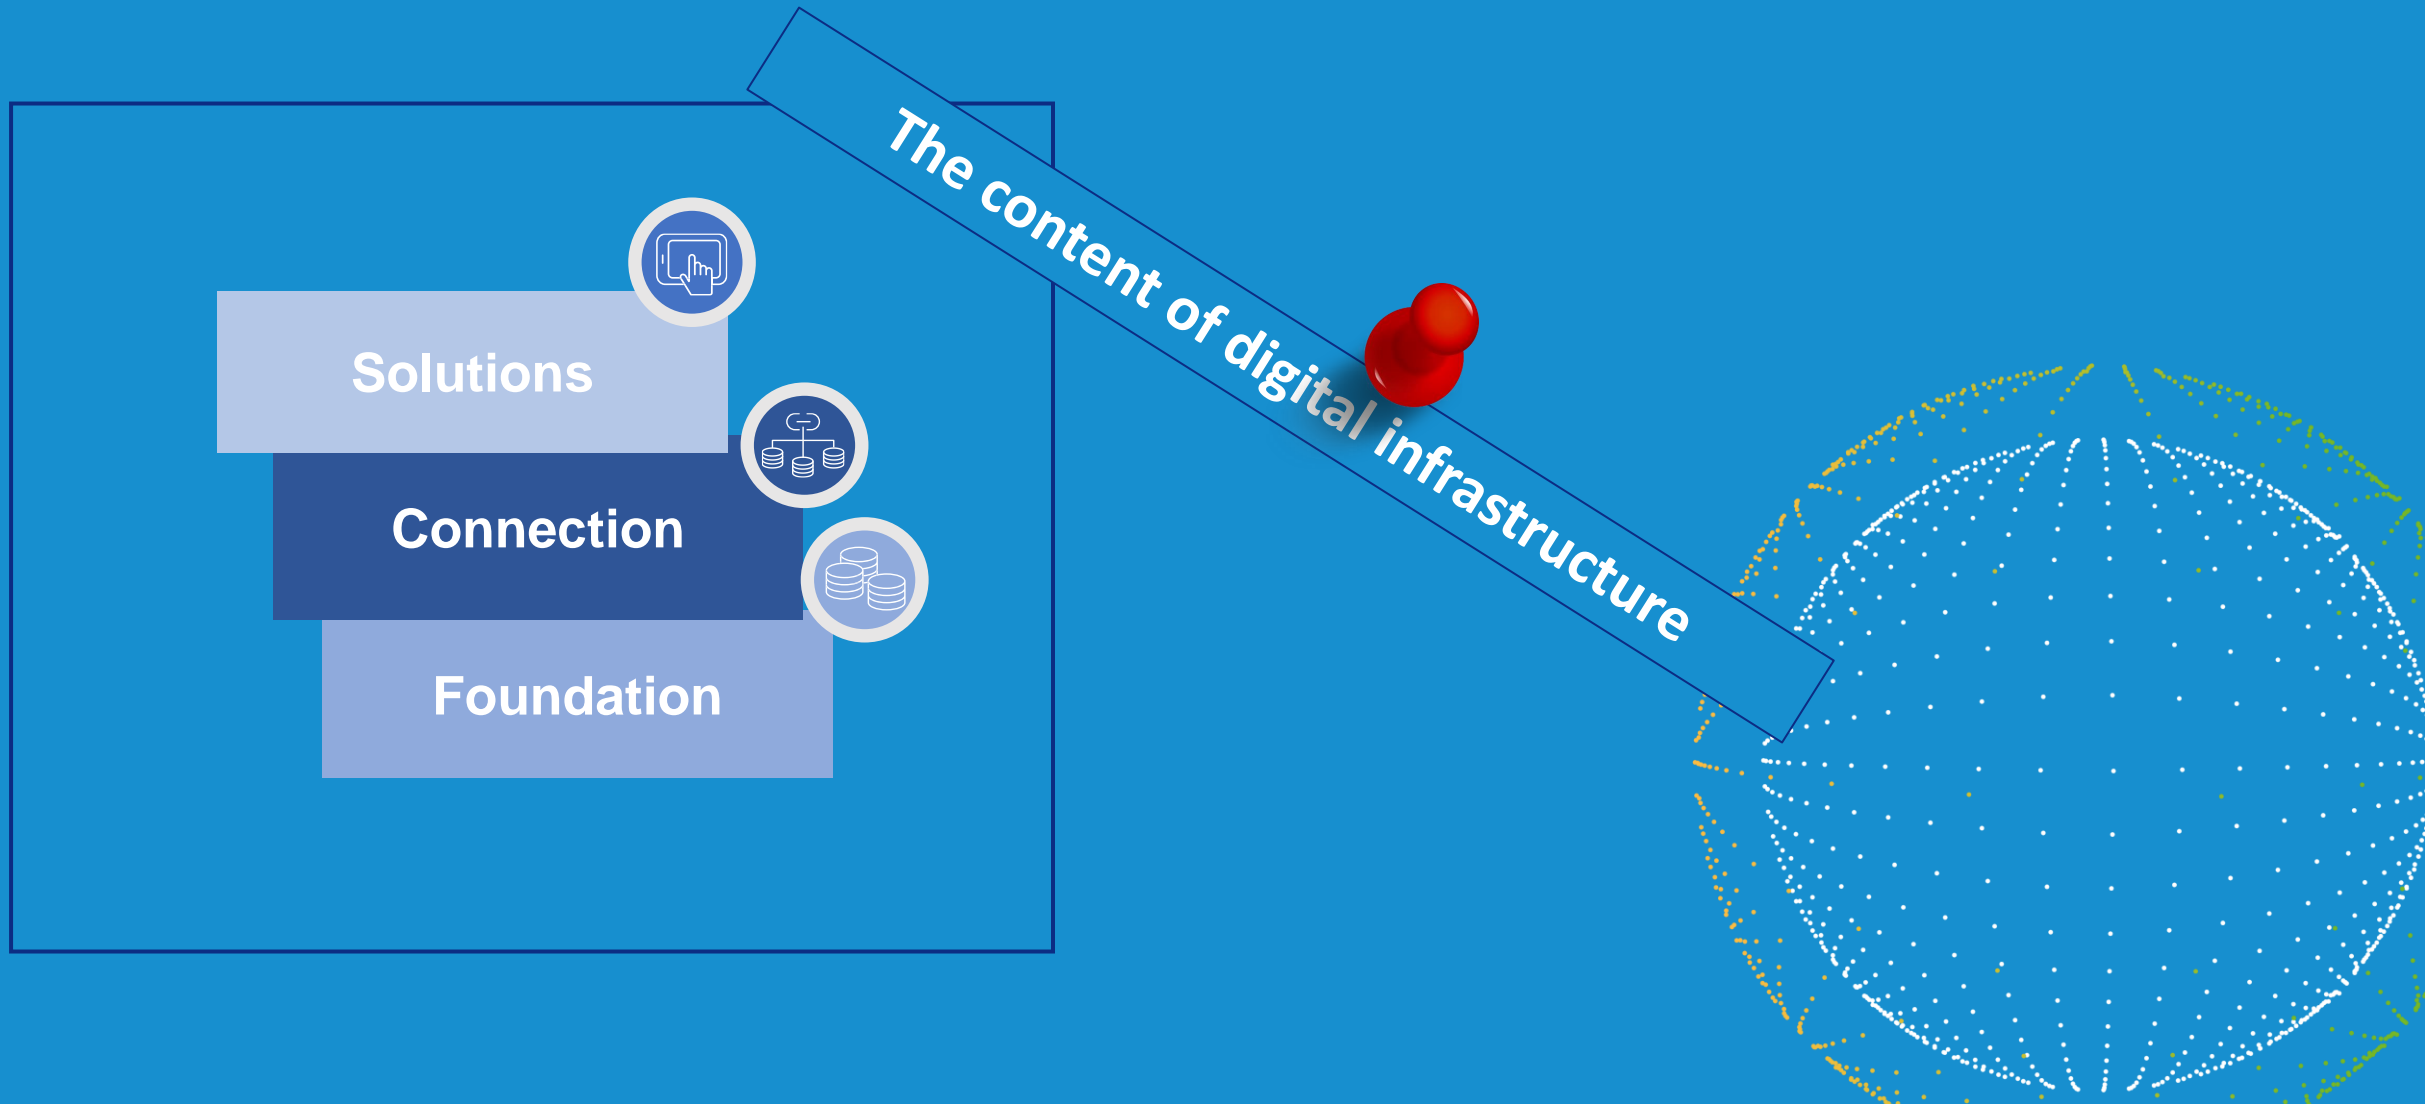

Agency for Data Supply and Infrastructure

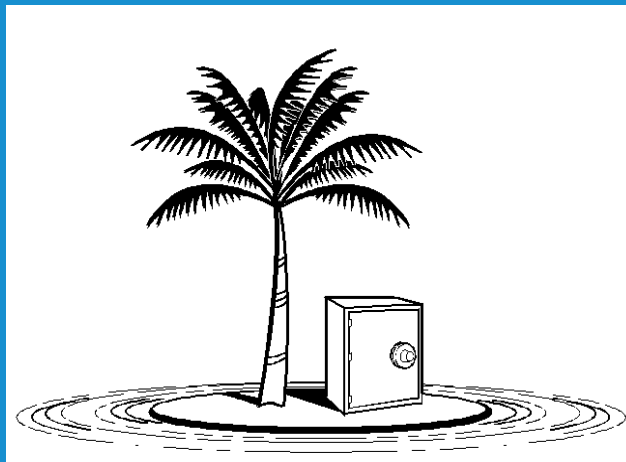

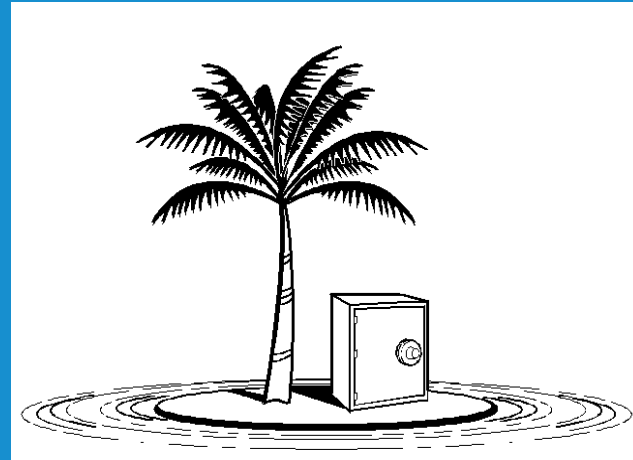

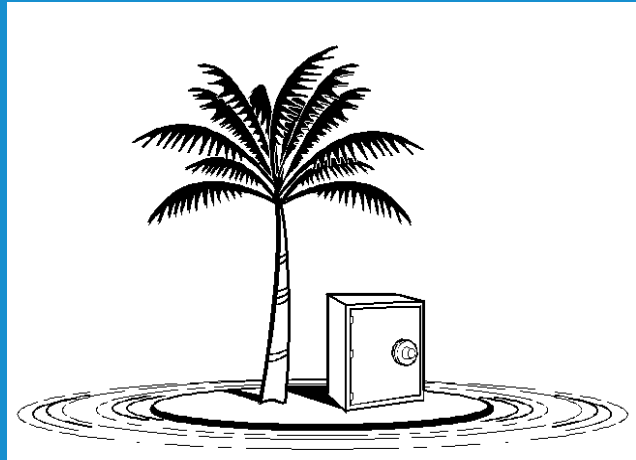

- Part of the Ministry for Climate, Energy and Utilities
- NMA and provider of data infrastructure
- Part of Digital Government – Spatial Data
- Responsible for the INSPIRE directive in DK
- And national use of Galileo data
- Chief advisor, Geographer and data enthusiast

Free and open spatial data via digital platforms

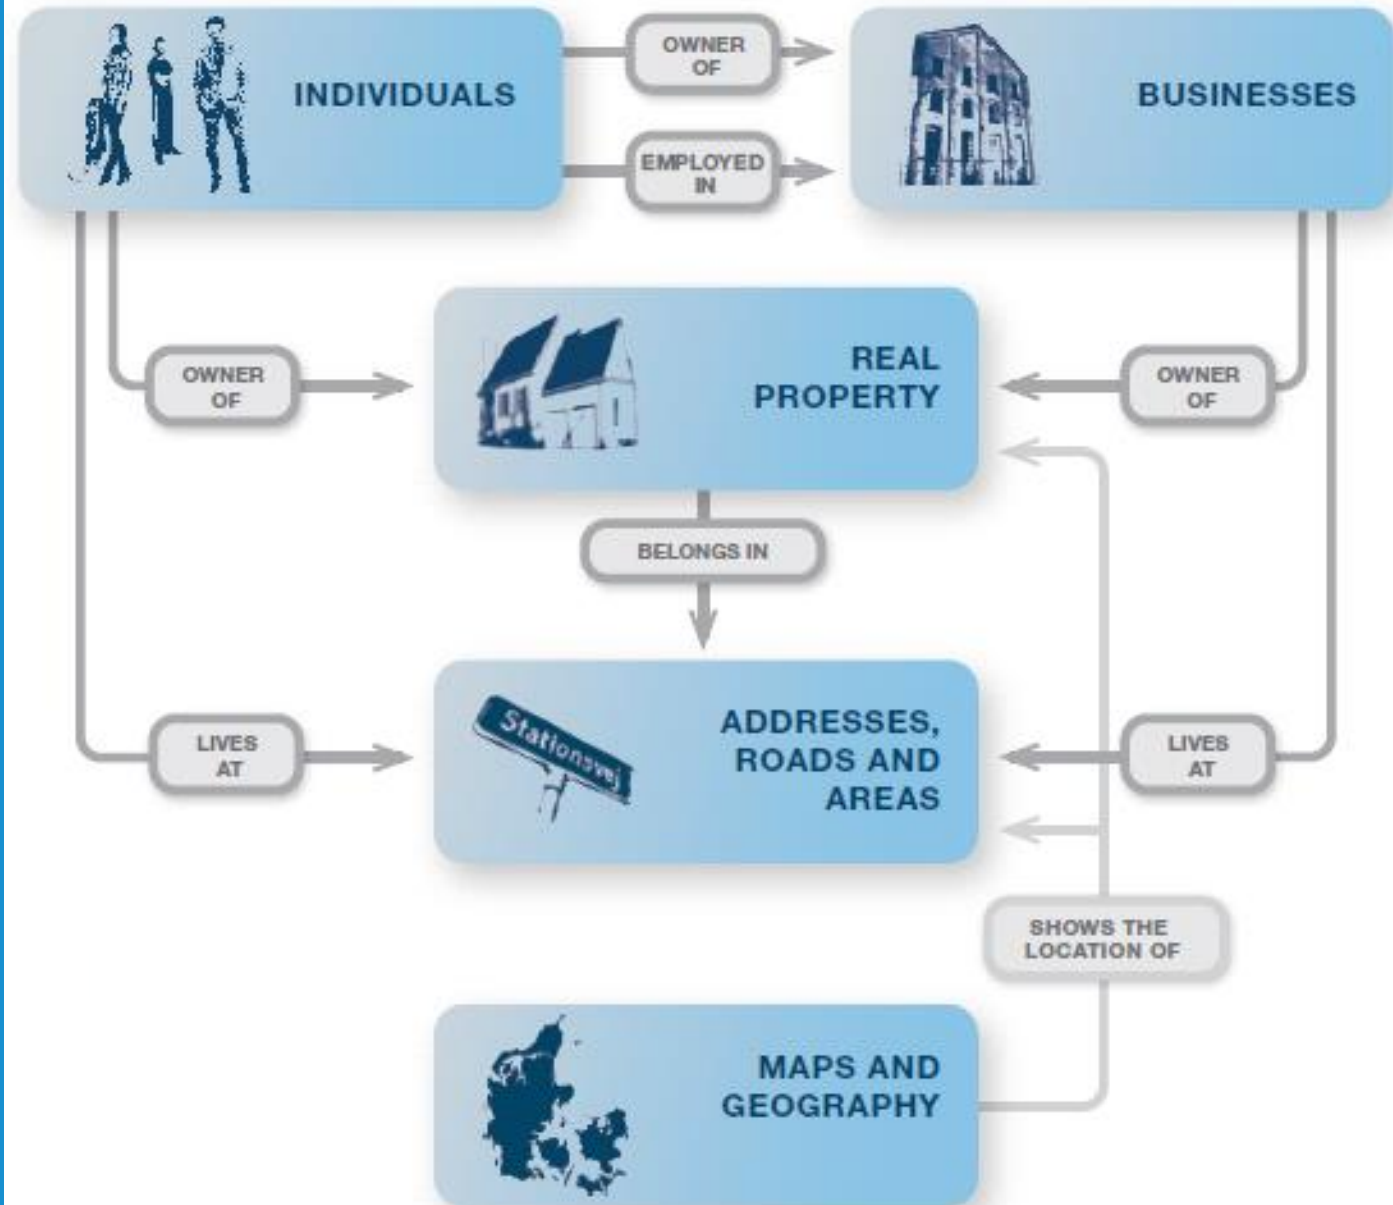

Expensive and inefficient islands

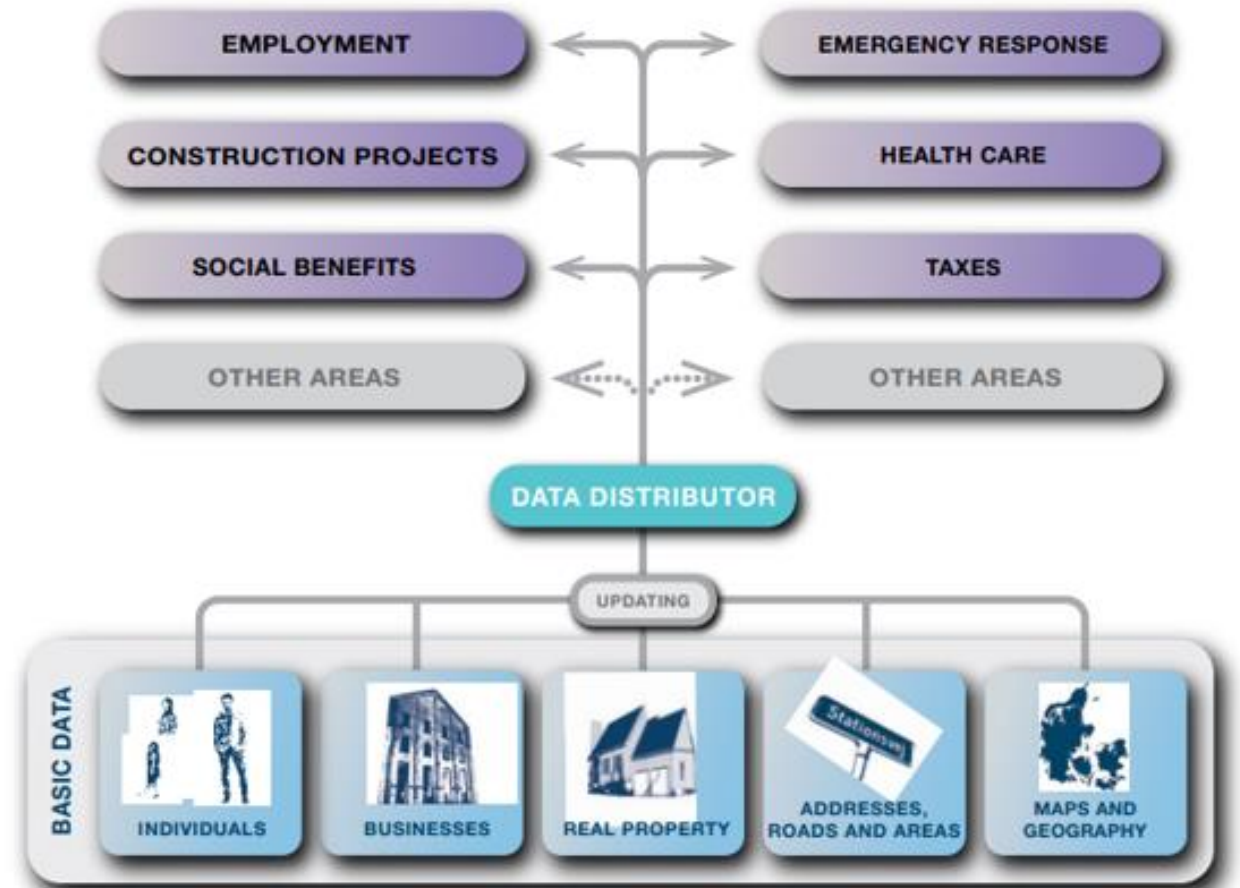

Basic Data

- Main Registers (law)
- Used most and cross sector
- Coherent and combinable
- Authoritative data
- One source

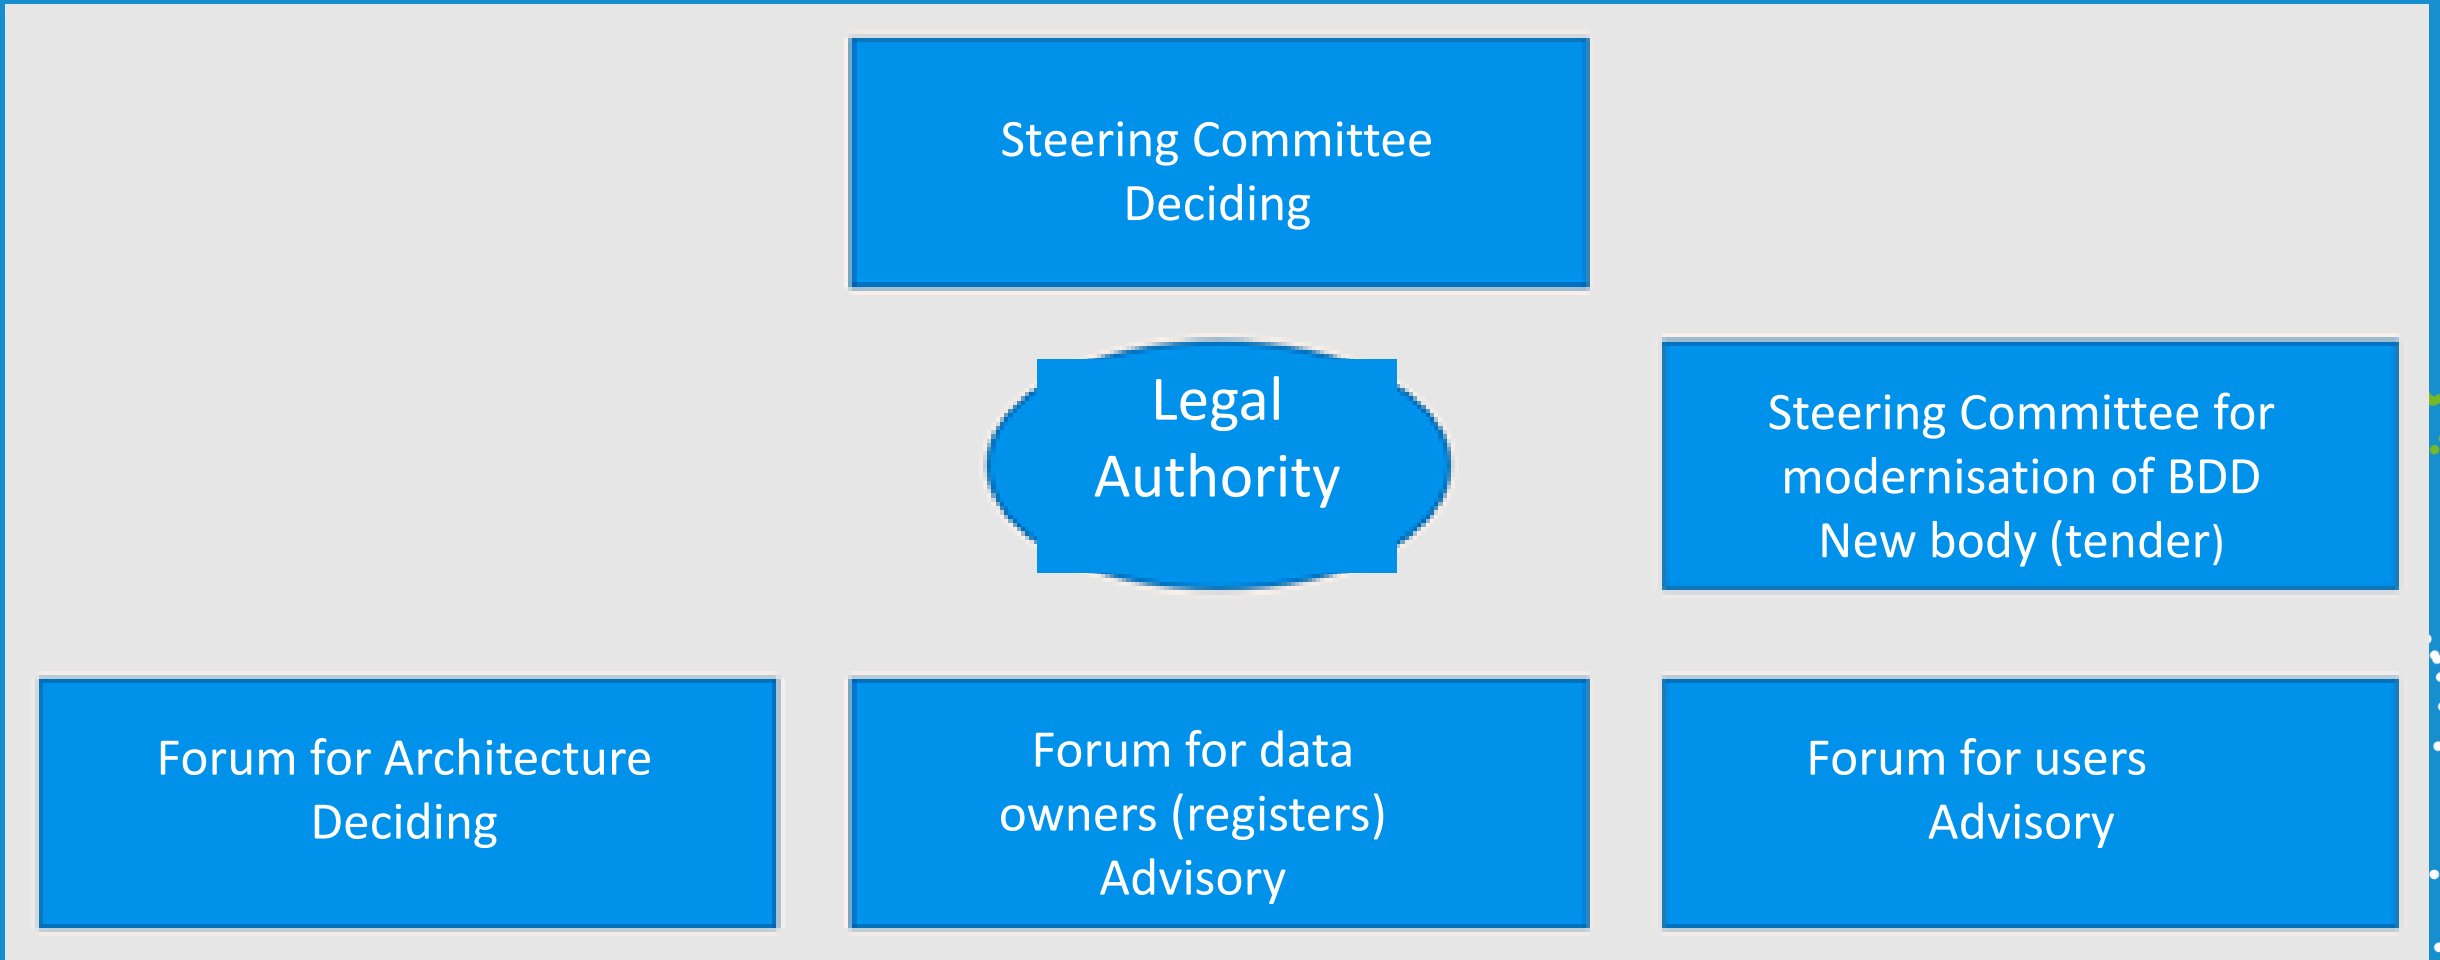

The Basic Data Distributor

- Single point of access
- Maintenance by the source (registers)
- Replacing many distributed solutions
- Easy and **secure** access
- Common data model and technical interfaces

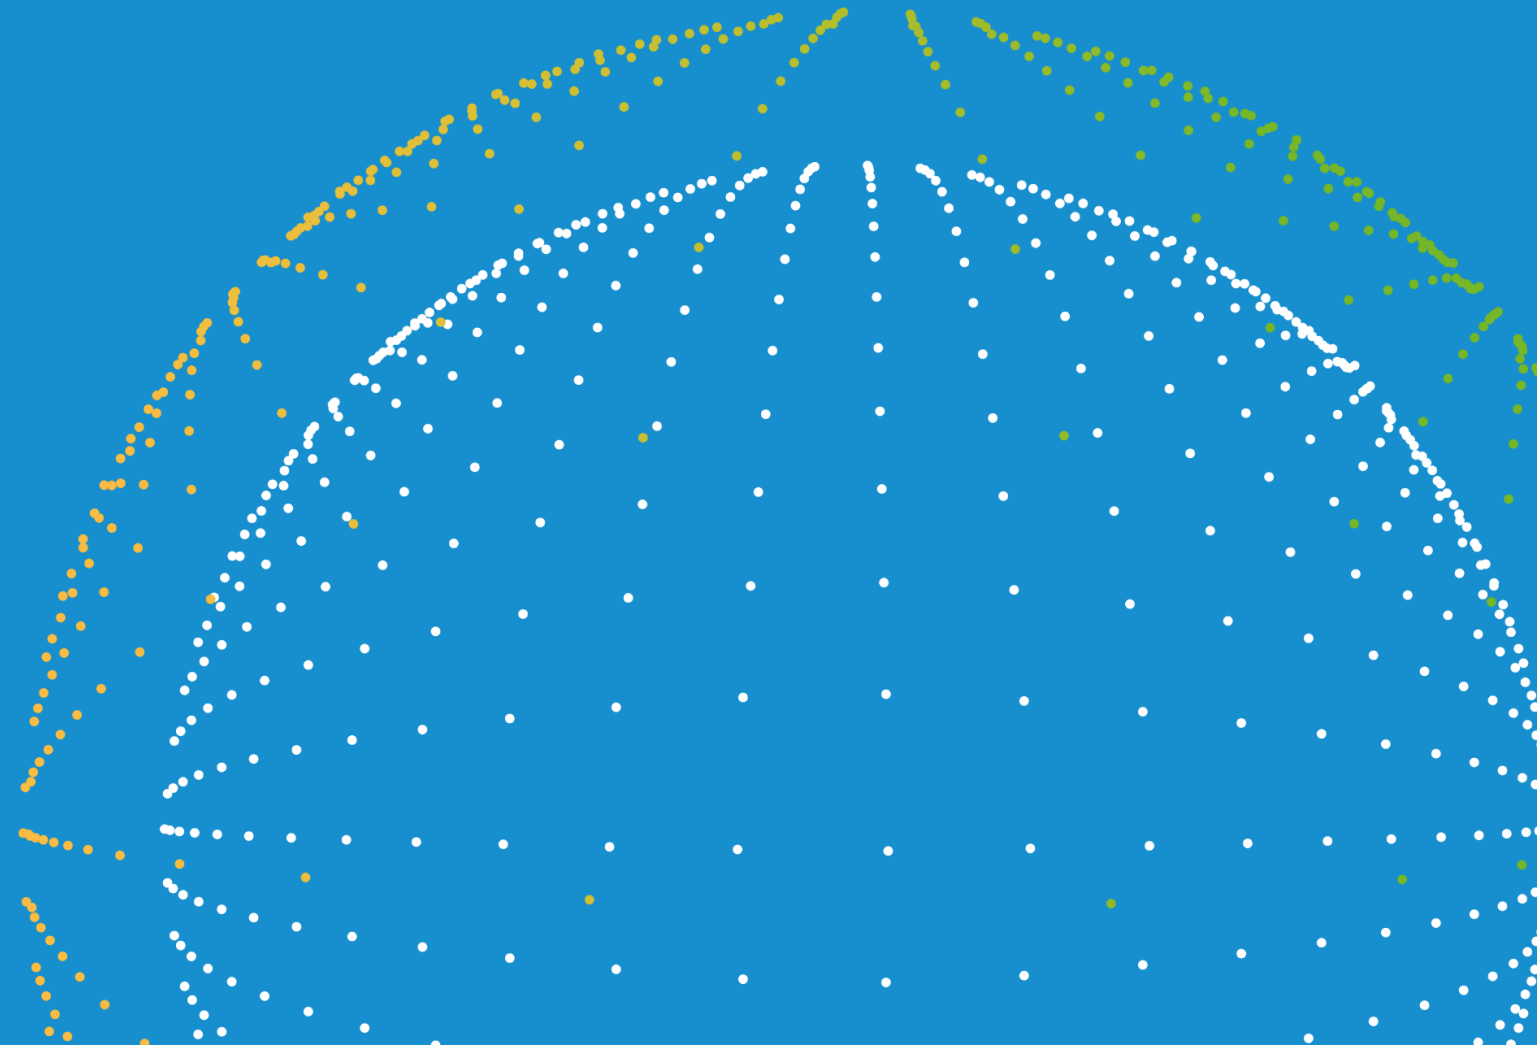

Governance

Central

Cross-sector, binding
collaboration

The private sector has a
significant role and influence

Intermediaries

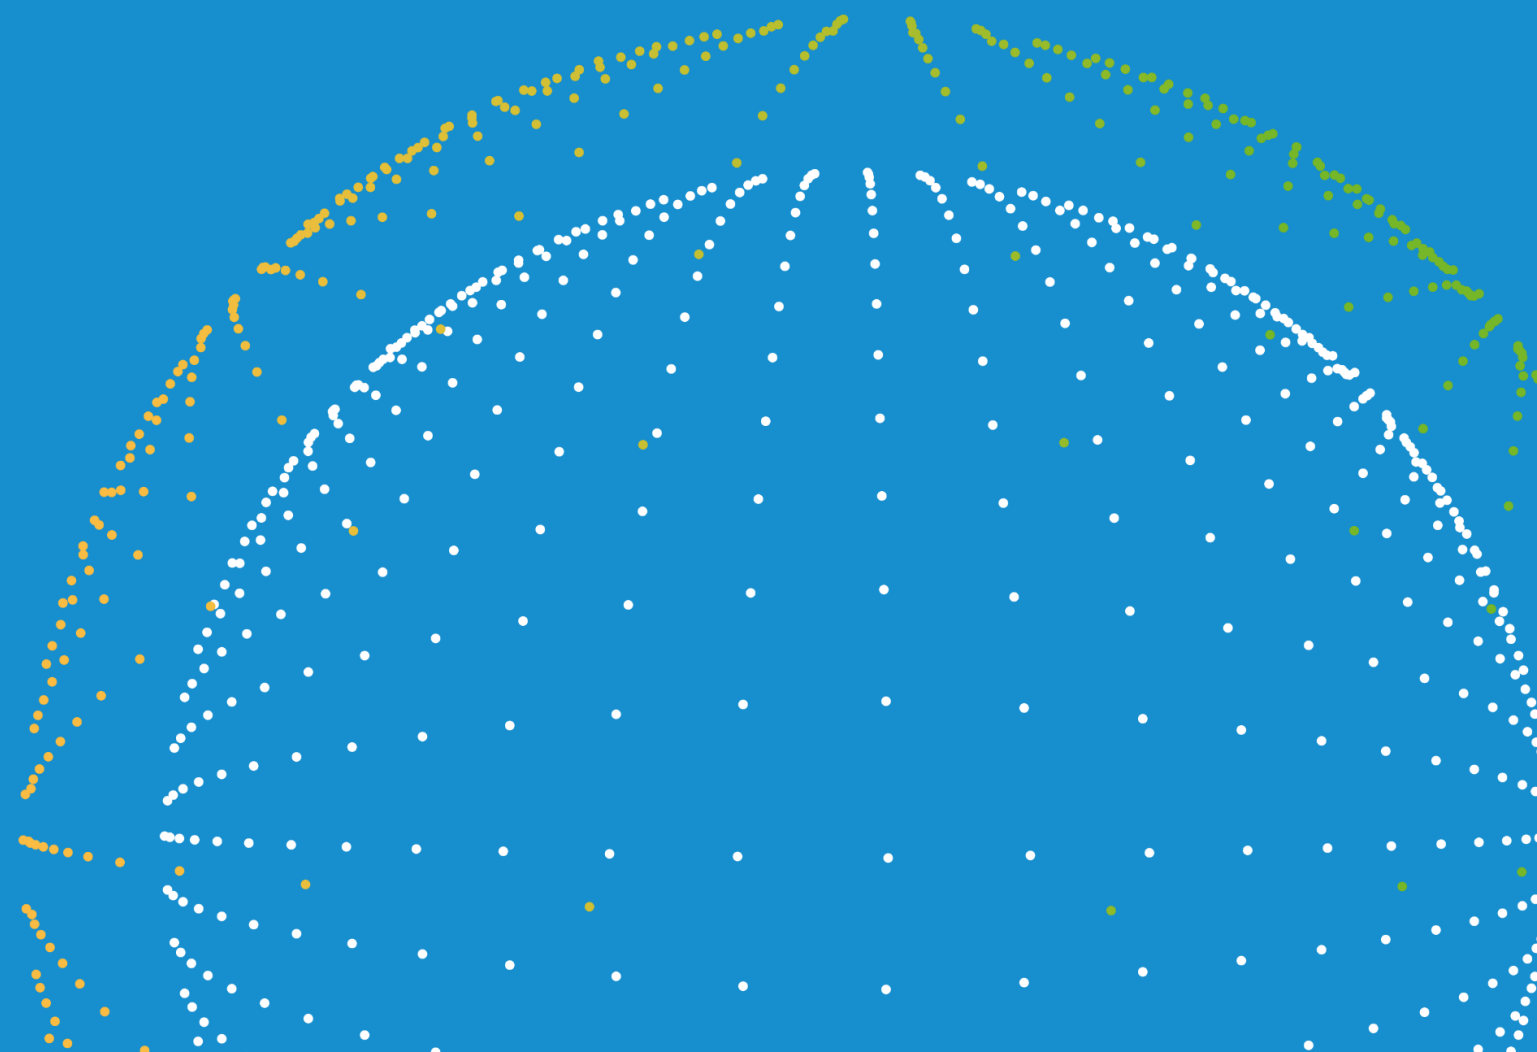

Private companies

Public sector

Value added services

Target solutions

Demand driven

Report on Value Realisation

Basic Data Program

2. november 2020

Public-Private collaboration on Basic Data creates value -
Financial sector report

10 mio. DKK saved per month

100 DKK = 14 Euro

A new currency

The Climate Act

The groundbreaking law that ensures a 70 percent reduction in Denmark.

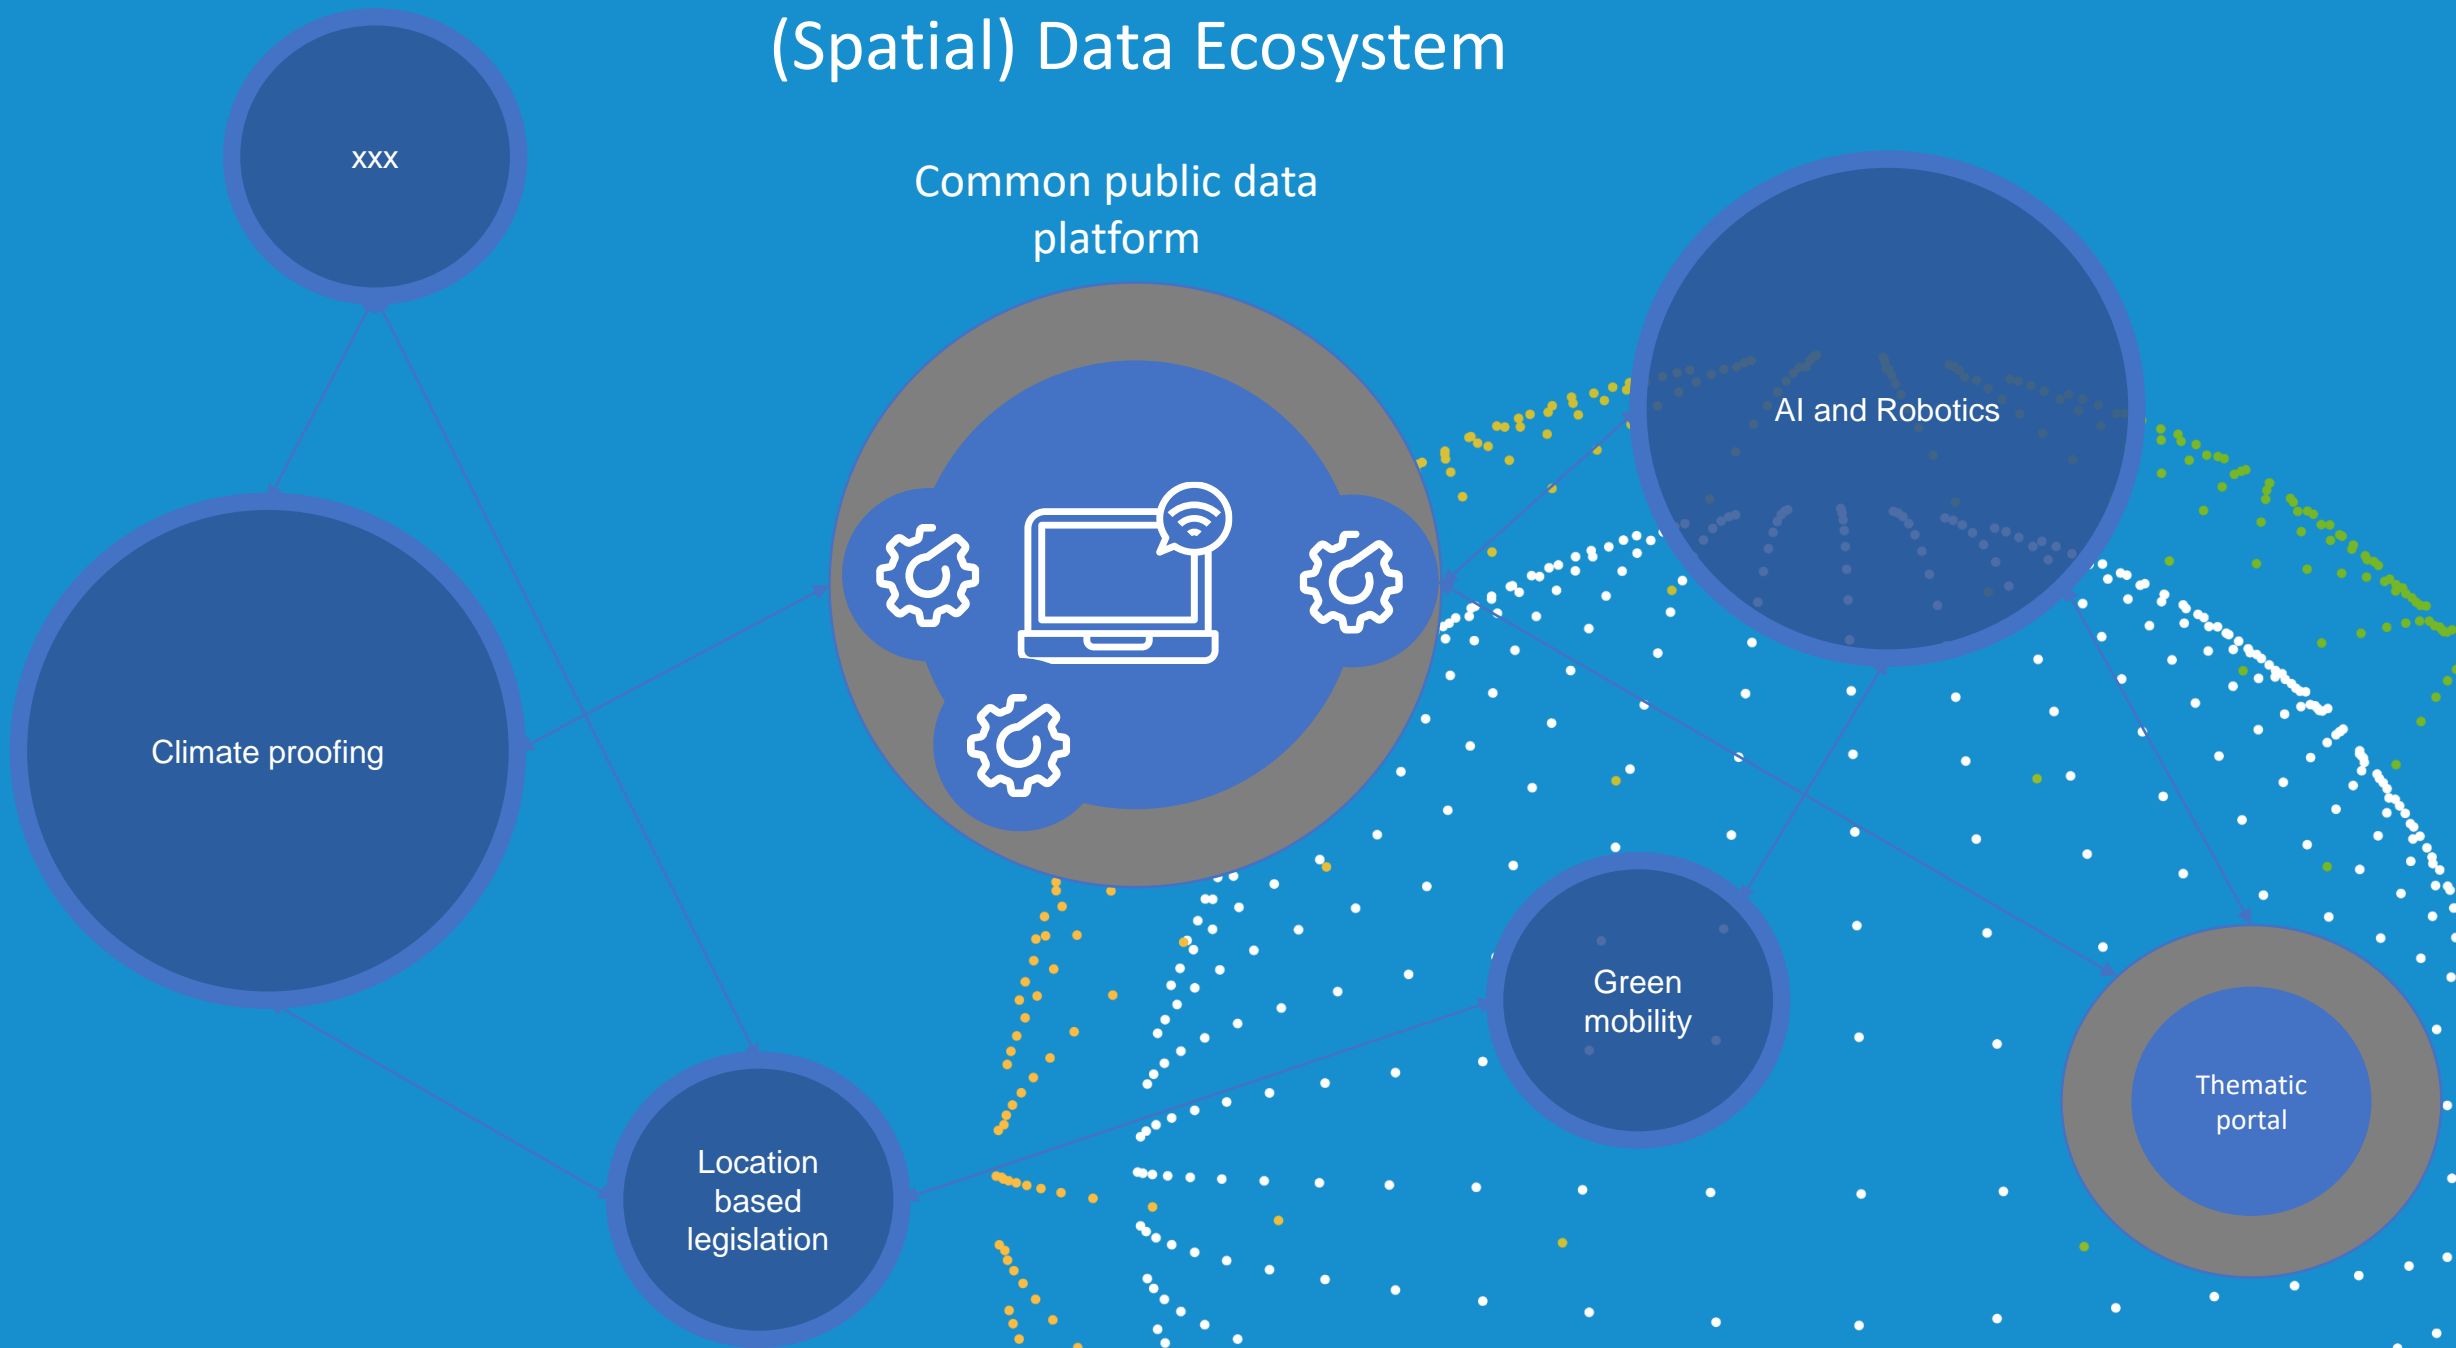

Complexity calls for collaboration

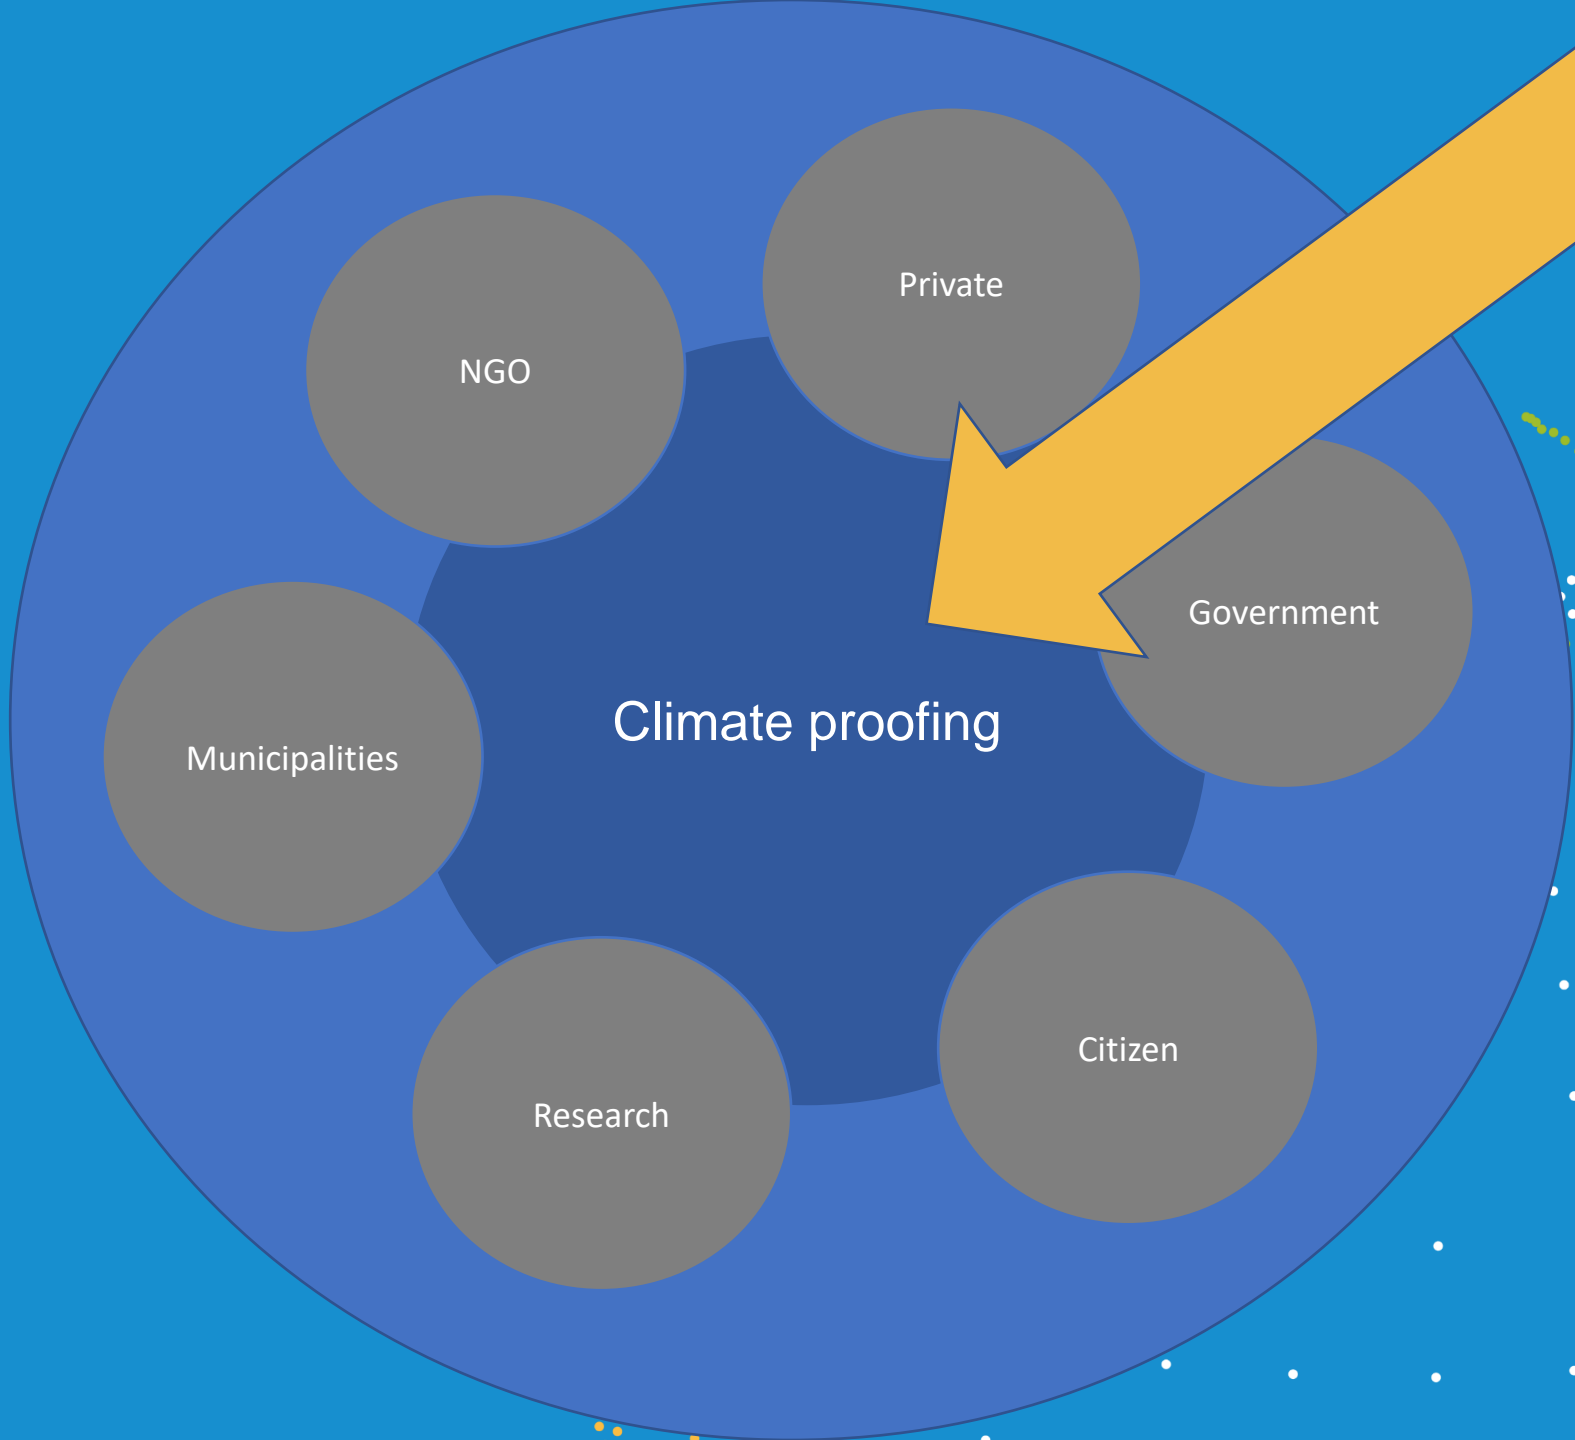

Do what you do best!
