A holistic approach to bring data spaces to global scale

IDSAs on its way to a global standard

INTERNATIONAL DATA SPACES ASSOCIATION

Global Standardization

Aligning architectures, market proliferation and thought leadership on data spaces

Fostering market adoption: Increasing readiness level and extensive use of IDS concepts

IDSAs Rulebook for holistic governance view

Reference Architecture as technology-agnostic framework on conceptual model

Dataspace Protocol as detailed specification and essence for interoperability

Certification for reliable, industry grade components

Diverse landscape of usable components and **radar** as orientation for ecosystem building and future investments

Running Data Spaces as impressive impact stories

IDSA History of Core Assets

IDSA on its way to a global standard

Kick-off of the WG Training

March 06, 2024

- » The Working Group training kick-off: With over **35 participants**, IDSA eagerly anticipates achieving all goals together with its members.
- » **Antoine Garnier** presented an overview of the **Professional Certification Programme**, including a live poll gauging interest in becoming a training provider.
- » Jesús Alonso introduced the **Data Spaces Body of Knowledge (DSBoK)** and discussed structured syllabi for certification roles. There was an update on the status of the DSBoK, emphasizing the importance of obtaining a Creative Commons BY license for reuse. Plans were outlined for document approval and timeline for **version 1.0 release**.
- » **Jesús Alonso** was elected as a chair of the WG, and **Christoph Becker** as a co-chair.
- » Next meeting is planned for **June 2024**
- » Join us by contacting

Antoine Garnier antoine.garnier@internationaldataspaces.org
Kateryna Kot kateryna.kot@internationaldataspaces.org

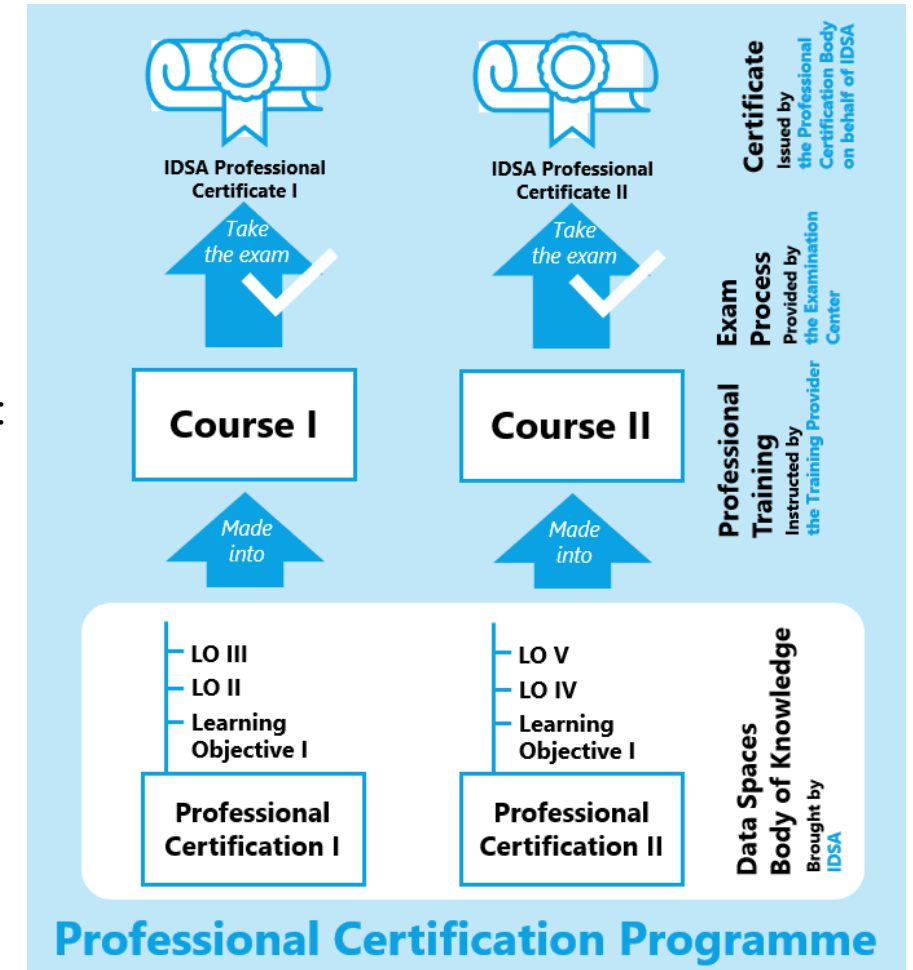

Professional Training Programme

Watch the master to be the master

- » IDSA is developing of a **Professional Certification Programme** about data spaces based on its framework.
- » Underpinning the Programme, is the **Data Spaces Body of Knowledge (DSBOK)** laying down essential information to develop trainings.
- » It describes first professional certifications to be part of the Programme:
 - » **Data Spaces Fundamentals**
 - » **Data Spaces Business Consultant**
 - » **Data Spaces Technical Consultant**
- » The development and the maintenance of the DSBOK occurs in the **Working Group Training (WG Training)**.
- » This collaborative endeavour results from the **Association joint experience**.

INTERNATIONAL DATA
SPACES ASSOCIATION

Let's create the next IDS-RAM together!

All IDSA members are invited

INTERNATIONAL DATA
SPACES ASSOCIATION

How topics for RAM 5

- Decentralized approaches
- Trust frameworks
- Usage control
- Interoperability
- Information model
- Data value creation
- Data governance
- Certification
- Relation to other DS initiatives
- Anything dataspace!

We need!

- **Dataspace enthusiasts** with overall concepts
- **Market savvy** for business and functional layers
- **Technical experts** (Systems design, software architects, etc.) for process, system and information layers
- **Artistic eyes** for visuals

How you can support

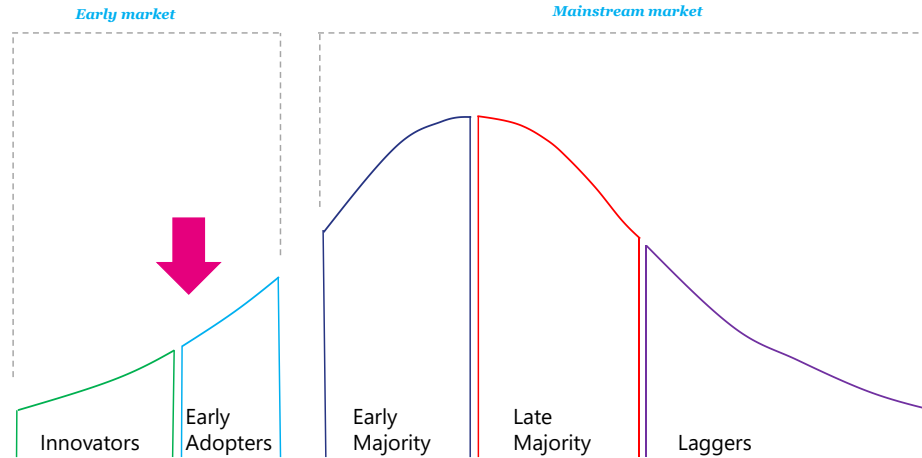

- **Discuss** in workshops
- Help **write content**
- Create **Diagrams**
- **Lead** a section

<https://forms.office.com/e/sP4PztkiCE>

IDS concepts as baseline for data spaces

Data spaces in multiple sector use IDS principles as blueprint

- Catena-X
- MDS
- SCSN
- DATA-EX
- Manufacturing-X
- Health Data Space
- ERJU-Rail Data Space
- Resilience Data Space
- Eona-X
- Media Data Space (DEP – now TEMS)
- Manufacturing Data Space (DEP)
- Kultur Datenraum
- AgDataHub
- Skills Data Space (DEP)
- More CSAs and Deployment actions
- SIMPL
- Shanghai Data Exchange
- Other Chinese Endeavours
- More – see Radar

Many players

Require collaboration to build Data Spaces

Market	Differentiation in the market
Not-for-Profit Organization (IDSA)	Collaboration to build a common set of services in Open-Source
Research	Reference Architecture Model Maintenance · Certification Scheme Maintenance · Certification · Rulebook Maintenance · Requirements Management · Standardization Activities · Knowledge Transfer · Internationalization · Platform for Domain-Specific Activities ... Reference Architecture Model (RAM, initial version) · Prototype Implementation in Use-Cases · Basic Versions IDS Components · Knowledge Transfer (Research Delivery and Support Center) · Technology Innovation (Usage Control, Trusted Connector etc.) Support of Standardization Activities · ...
