the Olympic Games

18 current use cases

6 operational from 2024

The Paris 2024 Olympics an accelerator for EONA-X

**Flow  
management**

Digital twin

**Example N°1**

**Access / Mobility**

Applications de  
dispatch

**Example N°2**

**Security**

Collaboration with  
authorities

**Services**

Fluidification of PRM  
stay

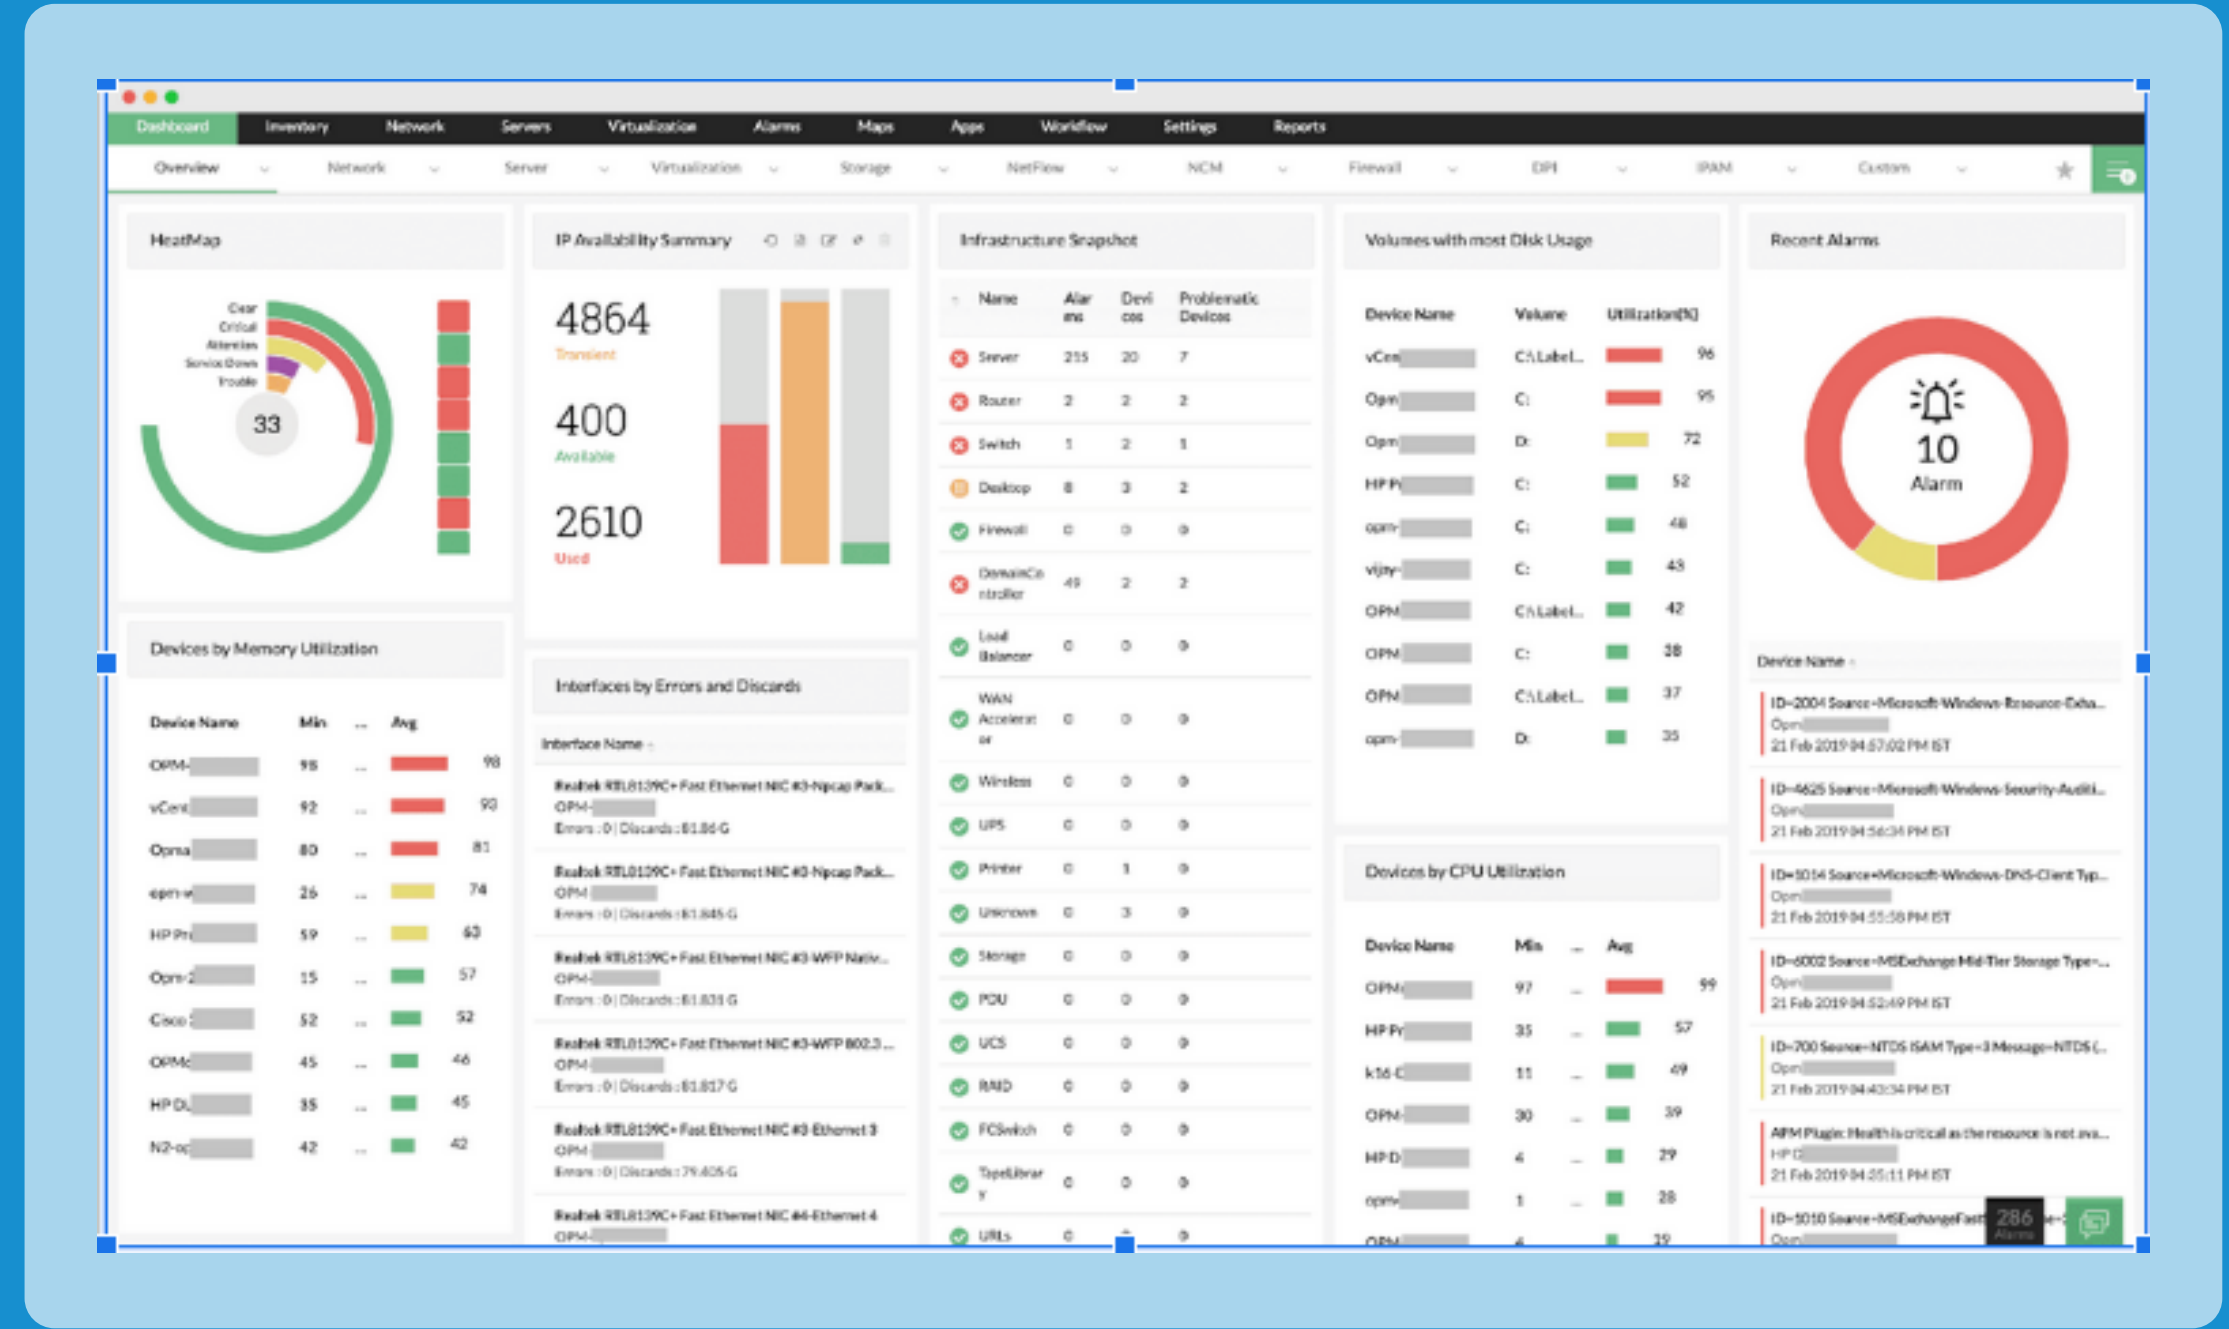

# Flow management and high attendance

## JOP Paris 2024

Example N° 1

Real-time feedback of each stage of the journey on the dashboard :

- Name of supported delegation
- Number and type of accreditation
- Type of route (PRM/non-PRM)
- Distance/time display
- Course status alert
  - Position at border control
  - Accreditation position
  - Luggage position
  - Position exit
  - Position pick-up zone
  - departure from the airport
  - View the journey of the different delegations
  - View traffic to destination

Multiple sources of data are consumed by the digital twin from Eona-X Dataspace

## Better efficiency of existing infrastructure

### Digital Twin

a simulation digital twin, allowing a predictive vision of each journey in a context of heavy traffic. Harnessing the power of AI simulation technology to ensure an optimal experience for each delegation arriving at the airport for the Paris 2024 Olympic Games.

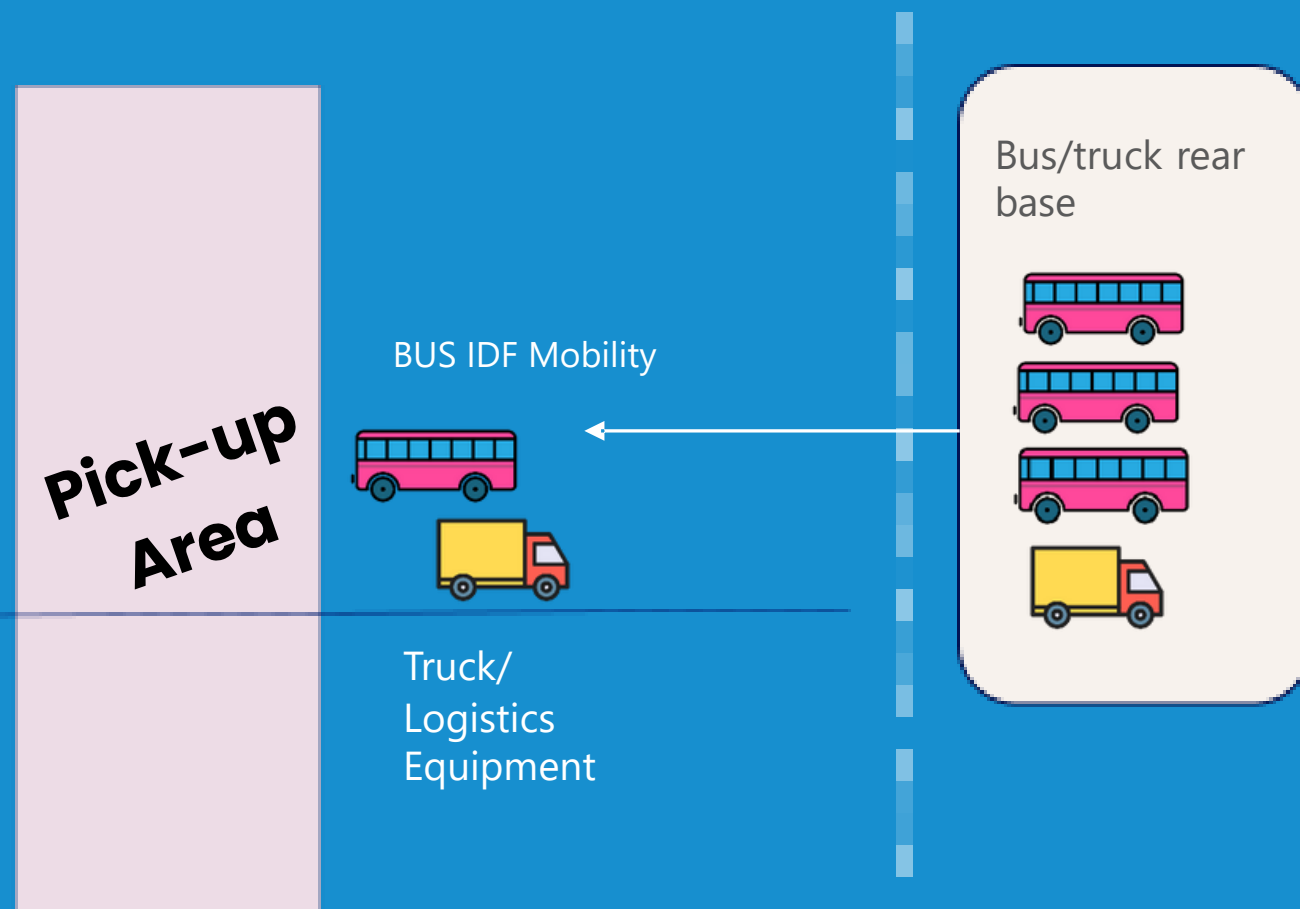

Silver medal prize at  
Data & AI Night 2024

# Management of vehicle dispatch (city side)

## Example N° 2

Management of the vehicle fleet in the waiting area towards the pick-up locations

Use of a solution during the JOP Paris 2024 that can potentially be used as a legacy for the management of shared mobility vehicles (touring coaches, taxis, VTC, etc.)

# How are dataspace transforming our lives?

improving mobility for  
the Olympic Games

Example N° 2

Powering a vehicle fleet management  
application via Eona-X

# How are dataspaces transforming our lives?

# improving mobility for the Olympic Games

Succeed in the Olympic Games

Welcoming new members

Service(s) around data quality

Method for researching economically viable use cases

Active participation in EU Projects

Conditions for making company data available for AI training purposes

Supporting cross-border use cases (EDIC)

Work on interoperability with other Data Spaces

# Thank You !
